PRACHI DEVI

Business Analyst | Product & Process Analytics
Gurugram, India | contact.prachidevi@gmail.com | +91-9115058000 | LinkedIn | Portfolio | Open to Relocation PAN India

SUMMARY

Business Analyst with 2+ years defining requirements, decision logic, and success metrics for network-operations platforms used by 2,000+ Airtel employees. Translates ambiguous operational problems into BRDs, functional specs, and decision trees that engineering builds against, validated with SQL, Python, and Power BI analysis. Promoted from intern to Assistant Manager within six months.

CORE SKILLS

Business Analysis: Requirements Gathering, BRD/FRD, Functional Specs, User Stories, Gap Analysis, As-Is/To-Be Process Mapping, UAT, Stakeholder Management, Product Backlog, Wireframing
Data & BI: SQL, Python (Pandas, NumPy), Power BI (DAX), Advanced Excel, KPI Design, Dashboarding
Tools: Jira, Confluence, ServiceNow, BMC Remedy, Visio, Figma, Git/GitHub
AI Tools: Claude, ChatGPT, Lovable, Emergent, Copilot, Gemini

EXPERIENCE

Process Analyst – Assistant Manager | Bharti Airtel Limited | Jul 2024 – Present
Lead requirements and decision-logic design for 4 governance and change-management platforms (CMS, ARC, NERVE, UDAAN) used by **2,000+ employees** across Airtel's national network.

- NERVE: Defined product requirements and decision logic for an AI-powered CRQ risk-assessment engine with a **6-factor risk score and 10+ conflict/deviation** scenarios.
- Scaled NERVE PAN India across 21 circles, **flagging 5,000+ cases** per month and **reducing network outages by 15%.**
- ARC: Authored the BRD and functional spec for a centralized CRQ governance and onboarded **10+ partners** on the platform.
- Designed an auto-approval workflow correlating ARC data with ServiceNow Access Requests, **cutting approval time from ~20 to ~5 minutes** per RITM and **freeing 7 FTE of capacity**.
- CMS: Drive requirements and rollout sequencing for a **6-module change-management suite** (Roster, Scheduling, Auto Assignment, Plan Validation, Impact Analysis, Approvals).
- Shipped 5 modules to production, **enabling 200 FTE**; leading the final Approvals module **(~50 FTE projected)**.
- Prepared comprehensive UAT observation sheets and leadership status trackers for the CMS Scheduler, **one of 5 modules** live in production, aligning engineering and operations teams.
- **Managing 5+ Project trackers** and status update files to ensure end to end project delivery.
- UDAAN: Aligned cross-circle stakeholders to design 30+ automated escalation workflows, **cutting resolution delays by 25%.**
- **Launched** Power BI monitoring dashboards tracking **UDAAN's 30+ automated workflows**, adopted NOC-wide.
- Developed a Power BI operations dashboard giving leadership real-time visibility into automation adoption, **raising compliance by 20% across circles**.
- **Mentored 2 new joiners** on the working methodologies of Airtel's different verticals, enabling them to work independently on their assigned teams.
- Won three Airtel Ace Awards (Roster; Auto Scheduler; Auto Assignment, Plan Validation & Impact Analysis) **across 3 award cycles.**
- Received the Collaboration & Influence Award for ARC, **my fourth award at Airtel**.

Graduate Engineer Trainee (Intern) | Bharti Airtel Limited | Feb – Jul 2024

- Created a monitoring dashboard from scratch, analyzing 1,200+ NMS telecom alarms with SQL and Python to reduce false alarms by 17%.
- Fed the output into a Netcool dashboard used daily by 50+ NOC team members, saving 2 hours per day.

EDUCATION

B.Tech. Computer Science & Engineering | Guru Nanak Dev Engineering College, Ludhiana | CGPA 9.07/10
